Lookweather.com provides you with accurate five-day temperature and wind power forecasts for the whole of Europe. The forecasts are computed four times a day by **EuroWind GmbH, the market leader of wind power forecasts in Europe.**

Comprehensive trader portal

Our new internet portal is specially designed for the upmarket needs of energy traders.

Your personal online account includes ...

peak values	diurnal sums
base values	downloadable Excel and text files
high resolution time series	indication of forecast accuracy
high resolution data tables	warnings against strong fluctuations
... of the expected wind power output.	

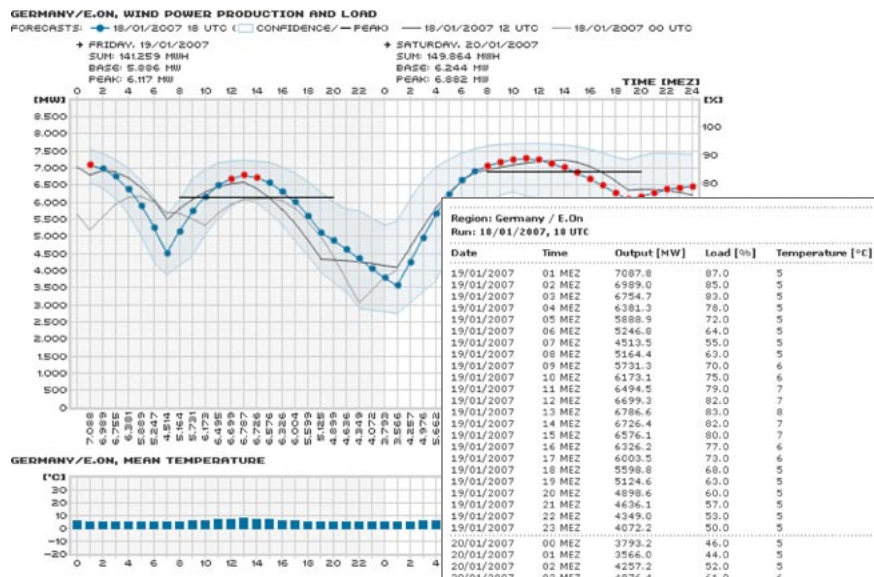

To assure a constantly high accuracy, EuroWind applies multiple numerical weather models for the calculation of the individual power output of each wind engine and adds them together for optional areas, such as control areas, provinces or wind parks.

Arrange your package

We can offer you forecasts for several countries and regions. You have the choice.

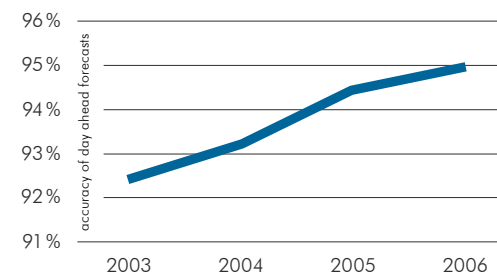

Forecasts are available for ...

Austria	Belgium	Czech Rep.	Denmark	France	Finland
Germany	Greece	Hungary	Ireland	Italy	Luxembourg
Netherlands	Norway	Poland	Portugal	Spain	Sweden
Switzerland	UK	E.On	EnBW	RWE	Vattenfall
... and many provinces or federal states.					

Monitored accuracy

The quality of our forecasts is permanently monitored by our graduate specialists. Due to continuous improvements of our complex forecast system, you can be sure of obtaining forecasts that set the benchmark nowadays.
